

SHORETRAX

MOUNTAIN BIKE TRACK SYSTEMS

- PORTABLE
- ACCESSIBLE
- MODULAR
- PROGRESSIVE
- FUN!

The thrill of the ride...

Shoretrax is a portable mountain bike track system, designed by professional mountain bike riders and inspired by the timber mountain bike trails of Canada's North Shore.

Designed for mountain bike enthusiasts of all ages and abilities, this fully portable and interchangeable track system delivers the thrill and excitement of riding a mountain bike trail in the mountains to your event, school, sports club, activity park or even your garden!

As seen on Channel 5's
The Gadget Show

For kids of all ages...

The Shoretrax system has all the excitement of a traditional fixed mountain bike trail but is fully portable and adapts to suit riders of any age or skill level.

The track height can be adjusted from flat to upright and any number of twists and turns can be created to suit the rider's level of technical ability. Shoretrax can also be used inside or outside and on any type of floor surface.

Although the Shoretrax system takes its inspiration from traditional mountain bike trails, you can ride the track on any type of bicycle including BMX bikes. This versatile system is the perfect introduction to get kids and adults of all ages riding their bikes, whilst having fun and getting a total body workout at the same time!

Shoretrax customers include:

Activity Centres

Event Organisers

MTB Coaches

Pro MTB Rider Schools

Youth Groups

TV & Film

Flexibility by design...

Flexibility is at the heart of the Shoretrax system. This fully portable modular system includes straights, curves, skinnies, transitions and ramp sections which are all interchangeable to form a complete track system.

The sections are quickly and easily joined together, without the need for tools. You can create continuous loops or point-to-point tracks in any number of different lengths or configurations. Add or remove sections, run flat or elevated, create ramps, rollers and even drop offs..

This in-built flexibility allows progression for riders with the ability to swap and change the layout as they gain confidence, speed and stability on the bike. This unique system is designed to enable you to take the track anywhere, creating a fun and safe environment for people of all ages to try mountain biking. Plus don't forget you can always add additional sections over time to expand the flexibility of your track layout options as your requirements change.

Engineered to last...

Developed and manufactured in the UK, the innovative Shoretrax system has been designed by engineers in consultation with pro riders and their coaches. Constructed using pressure treated timber and structural aluminium, the patent pending system is sturdy and durable whilst being lightweight and fully portable.

With tool-free assembly, the Shoretrax system is quick and easy to set up and folds completely flat for easy transportation and storage when not in use.

Designed and engineered to require minimal maintenance. The Shoretrax portable track system delivers many years of fun with challenging rides whether its used inside or outside and on any floor surface.

100m
track fits in
this size van!

On the right track...

Due to the large number of options and scalability of the Shoretrax portable system we have created a range of track packages from 10 to 100 metres in length catering for all budgets and requirements.

Whatever length of track you choose all of our kits come with ideas for track layouts for you to follow. We also include a 'mini-kit' scale model set of your track components so you can experiment with a new track layout before you build it for real!

All Shoretrax systems include basic training on how to setup and use your track. We can also offer a range of tailor-made training courses from our team of providers and MTB coaches. These courses provide tips and tricks on how to get the most challenging and enjoyable rides from your Shoretrax system.

"I tried Shoretrax in The Gadget Show studio and it was very impressive. MTB trail in your front room? Why not!!"

Jason Bradbury

Presenter, Channel 5's The Gadget Show

"The Shoretrax has been fantastic in promoting cycling across the county. Everyone just loves it!"

Helen Sophia Mrowiec

Senior Recreation Officer - Denbighshire County Council

"Shoretrax has provided a great way of engaging people of all ages and experience into cycling. Shoretrax is always a big draw!"

Ian Warby

Senior Support Officer - MTB Development - CTC, the national cycling charity

"Shoretrax is an innovative and practical solution that allows us to bring the joys and thrills of trail riding to an ever widening number of riders."

Richard Kelly

Mountain Bike Skills Training & Experiences - All Biked Up
